What is the LoG conference?

LoG is a new annual research conference that covers areas broadly related to **machine learning on graphs and geometry**, with a special focus on **review quality**.

The conference will debut from **9th – 12th December 2022** with a **virtual** edition.

We believe that a new conference dedicated to learning on graphs could play an **important role in the research community** and allow the study of machine learning on graphs to progress beyond what it is now.

Who runs the LoG conference?

The LoG conference is proud to work with some of the **strongest researchers in the field** who are committed to its success!

Regina Barzilay
Professor, Massachusetts Institute of Technology (MIT)

Xavier Bresson
Associate Professor, National University of Singapore (NUS)

Michael Bronstein
Professor, University of Oxford & Head of Graph ML, Twitter

Stephan Günnemann
Professor, Technische Universität München (TUM)

Stefanie Jegelka
Associate Professor, Massachusetts Institute of Technology (MIT)

Shuiwang Ji
Professor, Texas A&M University

Jure Leskovec
Associate Professor, Stanford University

Pietro Liò
Full Professor, University of Cambridge

Jian Tang
Assistant Professor, HEC Montréal, Mila

Jie Tang
Professor, Tsinghua University

Petar Veličković
Staff Research Scientist, DeepMind

Soledad Villar
Assistant Professor, Johns Hopkins University (JHU)

**Marinka Zitnik**
Assistant Professor, Harvard University

BRONZE
$2,000

- Display the company logo on our website and between the live sessions

- Access to the list of conference registrants + their CV (if the attendee agree)

SILVER
$5,000

- Display the company logo on our website and between the live sessions

- Access to the list of conference registrants + their CV (if the attendee agree)
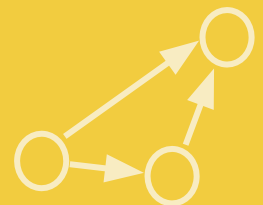

- Display short company advertisement between sessions

- Post ML-related job (up to 5) description for your company on the conference website
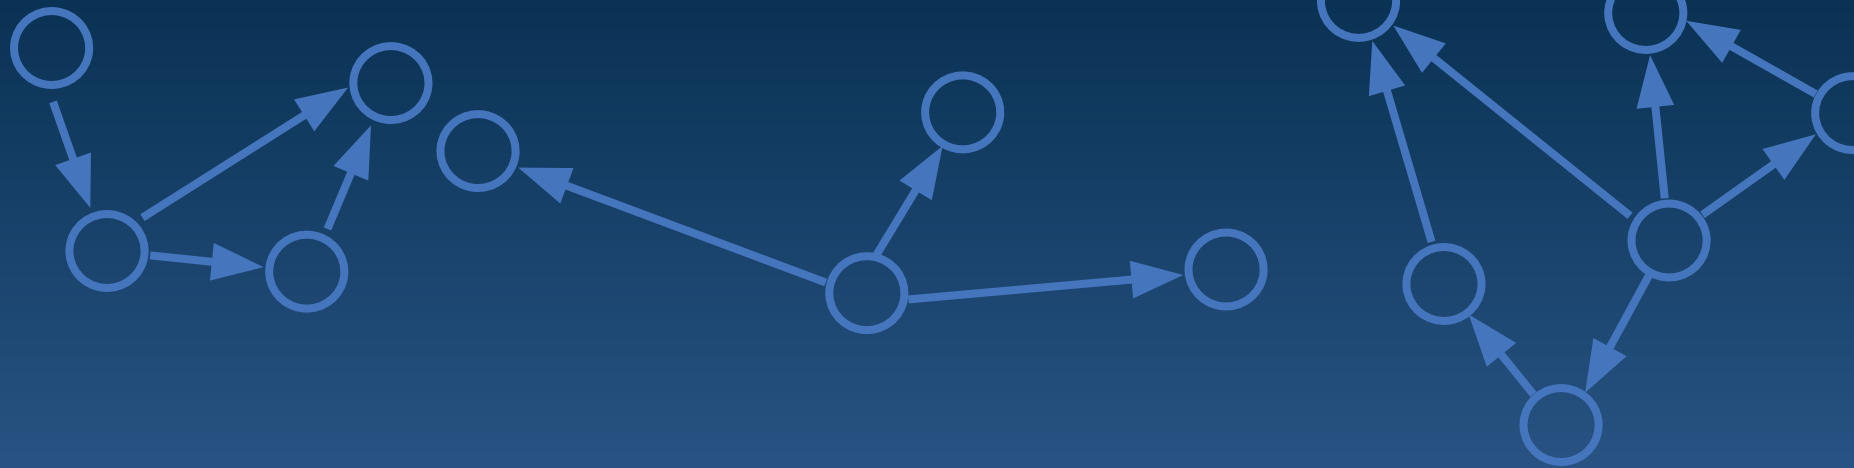

GOLD
$10,000

- Display the company logo on our website and between the live sessions

- Access to the list of conference registrants + their CV (if the attendee agree)

- Opportunity to give a keynote

- Display short company advertisement between sessions

- Post ML-related job description (up to 7) for your company on the conference website

- Virtual dedicated gathering space (GatherTown) to interact with participants interested to be recruited

Hope to see you @ LoG 2022!
